

ON TOP OF THE WORLD  
ABOVE THE HILTON.

From RM500,000

I OWN THE LUXURY.  
I OWN THE WORLD.  
I OWN THE MOMENT.

Developed by I-Berhad, i-City is a 72-acre freehold ultrapolis located along the Federal Highway with a direct flyover access. Envisioned as an intelligent city with commercial, residential and leisure activities, i-City is an international business hub by day and lifestyle haven by night.

Its property development component comprises of corporate towers, cyber office suites, serviced residences, hotels, data centres and a 1.5 million sq ft Central i-City shopping mall (slated to open in 2018) jointly developed with Central Pattana Group of Thailand.

i-City is a MSC Malaysia Cybercentre certified development, a world reference site for Cisco's Smart+Connected Community (CSCC), endorsed as a Tourism Destination by the Ministry of Tourism and Culture as well as declared an International Park by the Selangor State Government.

Open for registration  
i-Gallery : 10am to 6pm daily

Hill10 Residence

**Hill10 Residence** takes what you like about living in a luxury hotel and brings it home to you. Fully fitted and furnished with interior design concepts similar to the DoubleTree by Hilton, Hill 10 Residence is a seamless transition from the luxury hotel to your own private residence. Here, you can even come home to house keeping and room service\*, and a 24-hour coffee house.

Choose from any of the IoT-ready residences located from Level 22 to 43. Sharing a double-volume entrance driveway on the ground floor with the luxury hotel, Hill10 Residence comes with a cantilevered rooftop infinity pool, landscaped gardens, recreation zone, gym and other world-class facilities to complete your home on top of the world above the Hilton.

*I remember me jumping, jumping on the hotel bed shouting, "Yay! Room service, room service, room service!"  
For me room service means happy.*

*Me? I like coming back to a room that's all tidied up. You leave a mess and as if some elves had done the work, voila!...your room is neat and nice.*

*And what about the 24-hour coffee house? You're hungry. You can't sleep. There's work to deliver tomorrow. Nothing like the people ambience in a coffee house as you pound away at your laptop.*

*You know what I like?  
When you stay in a hotel, everyday is a holiday.*
